

Project Title	Project - SKILL AND JOB RECOMMENDER
Team ID	PNT2022TMID03192

DATA FLOW DIAGRAM:

A data-flow diagram is a way of representing a flow of data through a process or a system. The DFD also provides information about the outputs and inputs of each entity and the process itself. A data-flow diagram has no control flow — there are no decision rules and no loops.

EXPLANATION:

User can login or register if it is for first time, user can see home page with list of jobs, user can use search button to search the job related to their skills and apply to that job, which can be seen by the recruiters, and also they can apply in that portal their resumes, and recruiters from the specific job can search the required candidates, with required skills.
